

THE COOLEST BODY ARMOUR

TECHNICAL DATASHEET

The Coolest Body Armour is composed of a shirt for concealed wear, ballistic inserts, and shoulder pads. It offers the protection against slash, stab and bullet damage. The soft ballistic inserts protect the front and the back side, and are certified as protection against common ammunition types of handguns, and against cuts/stabs. The shirt has attached zippers on the side, that offer a snug fit to the user. The shoulder part is reinforced, and contains the pocket for a cooling pad (hydro-cooling effect with water), which also offers extra padding and protection against chafing. The fabrics used are comfortable, anti-bacterial, nice to the touch, and they offer a good feeling to the user, even with prolonged wear. The shirt is designed in a way, that it can be worn comfortable while driving as well. In a set, there is a carrying bag, two shirts, attached belt for tighter and more comfortable fit, two reinforcing/cooling shoulder pads, and one set of soft ballistic inserts with the protection of standard SK1, antistab NIJ 0115.00 (up to 18J of force).

PRODUCT CODE

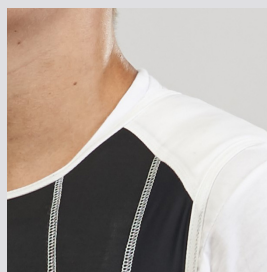

- Unisex: MA036

MATERIAL

- Torso 100% special cooling mixture of synthetic fibers.
- Inner layer 100% mixture of quick-drying.
- Anti-bacterial special polyester fibers.
